

About the organisation

Zavod Nefiks is a youth NGO based in Ljubljana, implementing activities throughout Slovenia.

Our main target group are young people aged 15 to 30 who need support with their career development (mostly high school and university students and young unemployed).

The purpose of Zavod Nefiks is to assist young people and youth organizations with recording, presentation and promotion of skills and competences acquired through non-formal education. The organisation is committed to the implementation of career guidance for young people through most of its activities.

In order to achieve its aims and objectives Zavod Nefiks carries out various activities (to promote non-formal education) and organizes educational events (courses, seminars and workshops) in order to raise skills and promote employability and entrepreneurship among young people.

Some of these activities/projects are:

- Career clubs (workshops for high school students on career orientation and skills development led by trained peer counsellors; the clubs are being held in schools and youth centres all around Slovenia)
- Colleagues (project aimed at young unemployed women where each individual has an opportunity to meet and connect with a successful woman. She becomes her mentor – her colleague. The two meet on a regular basis and discuss the possibilities and appropriate approaches for reaching a career goal.),
- Employment Clubs for youth (groups of first-job-seekers that are looking for job opportunities; they have meetings on weekly basis, organize events and make career plans; the main goal of the activities is that participants find jobs.),
- International youth projects in the framework of Erasmus + and similar programmes (youth exchanges, training courses for youth leaders, strategic partnerships... aimed at improving the level of key competences and fostering active citizenship among youth),
- Language clubs (English, Spanish, Italian and other language clubs, where participants improve their language skills through conversation),
- Web portal www.talentiran.si (We keep track of all information regarding employment literacy in one place.) and many other activities.

Why EVS?

We feel that EVS can be a great way to increase the employability of young people and make them more aware of the European reality in which we now live. That is why we want to host a volunteer also in our organisation.

We are also sure that hosting volunteers will bring new knowledge and ideas to our own organisation and that we can offer a lot to them as well.

Tasks of the EVS volunteer

The role of the EVS volunteers in our organisation will be to help us promote EVS among young people and serve as a living example and role model to those who still need a bit of encouragement to take on this challenge.

Also the volunteer would have the possibility to get involved in as many of the above mentioned projects as he/she will be interested in and help us implement the day to day activities (organise career and employment clubs, prepare different workshops, promote activities, provide information to participants, work on international projects etc.).

As we think that EVS should also be a learning opportunity for the volunteer we will also support the initiatives brought forward by the volunteers themselves and help them carry out their own project idea. Together with the volunteer we will design the project according to the volunteer's ideas and expectations.

The volunteers will work together with the staff and local volunteers in our office in Ljubljana and in the field (at events and visiting all our career/employment clubs and other activities that we run in different towns all over Slovenia).

Food, accommodation & pocket money

The volunteer will live in a shared apartment with other volunteers/students. He/she will have a private room. The apartment will be equipped with a kitchen, bathroom and all basic living necessities.

The volunteer will receive a monthly food allowance and pocket money according to the financial rules of the Erasmus + programme guide.

The programme covers also the travel costs to/from Slovenia from/to your country of residence and a medical insurance for the duration of the project.

About the project

We are looking for a volunteer for 6 to 10 months (the exact duration of the project will be agreed with the volunteer beforehand). The project would start in September 2017 and last until June 2018. We will apply for funding on the April 26th deadline.

Los interesados deben rellenar el [formulario online](#) y mandarlo antes del **26.03.17**. Los candidatos preseleccionados tendrán una entrevista por Skype.

Se informa que los seleccionados deberán asistir a una formación a la salida, presencial y obligatoria en Málaga.
